Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Saturday 18 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Murky in the south, clearer skies further north.

This Evening and Tonight:
Skies staying relatively clear for higher parts of the Pennines and central areas of Cumbria, allowing it to turn locally frosty at low levels. Murkier further south and generally along coasts as cloud lowers, bringing mist and some fog. Minimum temperature -2 deg C (28 deg F).

Sunday:
Any mist slowly clearing but leaving a cloudy day in the south, with the best of any sunshine again across Cumbria and Pennine regions. Feeling slightly chillier than Saturday. Maximum temperature 6 deg C (43 deg F).

Outlook for Monday to Wednesday:
Remaining dry and settled. Many areas cloudy at first but some sunshine is likely, especially on Wednesday. Fog in places overnight and feeling colder with increasing likelihood of frost.
